SILAGE RESERVE

THE BEST SOLUTION FOR FEEDING YOUR HERD
FROM BUNKER SILOS OR AG BAGS

VALMETAL

THE VALMETAL SILAGE RESERVE IS SUITABLE FOR ALL TYPES OF CHOPPED FEED!

FEATURES

- Wall panels and floor are made of heavy gauge stainless steel to resist abrasion and corrosion.
- Independent apron drive for better control of unloading.
- Heavy duty logging chains rated at 11,300 lb (5140 kg).
- Paddles and chains move on UHMW slides to reduce friction.

SPECIFICATIONS

Rear loading height	60" (152 cm)
Width at the top	109" (275 cm)
Width at the bottom	76" (193 cm)
Total height (without legs)	92" (233 cm)
Unloading height (with legs)	36" (91 cm)

Motor requirement	5 hp (4 kW) / beaters 3 hp (2 kW) / conveyor
-------------------	---

4 MODELS AVAILABLE

Length	Height	Capacity
164" - 306"	127"	360 - 900 ft ³
415 - 777 cm	321 cm	10 - 26 m ³

3 heavy duty beaters are driven independently with a 5 hp (3.8 kW) motor. Sharp hardened knives can chop through the toughest material, like frozen silage.

Heavy duty logging chains ride on UHMW slides and are covered to prevent material from getting in contact with the chains.

Apron speed is controlled by a variable frequency drive (VFD) which regulates the unloading flow, ensuring precise quantity delivery.

Specifications, descriptions and illustrative material in this literature are as accurate as known at the time of publication, but are subject to change without prior notice. Illustrations may include optional equipment and accessories, and may not include all standard equipment.
