FEED PUSHER**

# VALMETAL FEED PUSHER PRO-FEED 2020

- ✓ IS VERY SAFE FOR ANIMALS AND CHILDREN
- ✓ WORKS WITH BOTH DRY AND SILAGE HAY
- ✓ SAVES YOU TIME

## OVERVIEW ADVANTAGES OF THE AUTOMATIC FEED PUSHER:

### REDUCES WASTE AND FOOD REFUSALS

The Pro-Feed 2020 will gently turn over feed back into the cows reach, without packing TMR against the feed bunk. Creating a new pile of fresh smelling feed, enticing cows to increase their dry matter intake throughout the day and consequently increase their milk production.

### MINERAL RESERVE (OPTIONAL)

Allows to spread small quantities of concentrated feed or minerals onto the feed to increase dry matter intake.

### SIMPLE & INTUITIVE INTERFACE

A robust, waterproof controller with a 10" (254 mm) touch screen is very easy to use. The menu is simple and user-friendly; you only need to follow the instructions given on the screen. Programming and making adjustments can be done at the robot.

### INNOVATIVE CHARGING STATION

The charging station is a thin pad that is very durable and requires 110 Volt power. It can be placed anywhere in the barn as it can support heavy weight, even tractor.

### SIMPLE, EFFORTLESS & INTUITIVE INSTALLATION

Installation is performed with small magnets making it simple and effective.

### WI-FI CONNECTIVITY FOR REMOTE MONITORING

Remote access available through local WI-FI connection using your computer, tablet, and cell phone. If there is a problem, the Pro-Feed 2020 will notify you by text messages (SMS). Our specialists can check the settings and install upgrades, if required, remotely via Wi-Fi.

### THE GREATEST RANGE ON THE MARKET

Powered by two 12 Volt gel batteries designed for hot and cold weather, long runs, and daily use.

### TECHNICAL INFORMATION

- Overall dimensions: 79" x 43-1/2" x 33-1/2" (2,000 mm x 1,100 mm x 850 mm)
- Weight: 1540 lb (700 kg)
- The motors are brushless and maintenance free.
- Size of the charging station plate 1/8" (3 mm)
